SUMMARY

Software Engineer with backend development experience and AWS Certified Cloud Practitioner, comfortable working across Linux environments and cloud fundamentals (compute, storage, networking). Experienced in building and deploying REST APIs, debugging production issues, and working with Git-based workflows in team settings.

SCHOLASTIC RECORD

Year	Degree	Institute	CGPA/%	Remark
2026	B.Tech (Electronics and Telecommunication)	MIT Academy of Engineering, Pune	8.98	Distinction
2022	12th (Maharashtra State Board)	Bhartiya Mahavidyalaya, Amravati	81%	Distinction
2020	10th (Maharashtra State Board)	Golden Kids English School, Amravati	85%	Distinction

SKILLS

- **Languages:** Python, JavaScript
- **Computer Science Fundamentals:** Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks
- **Backend / APIs:** Node.js, REST APIs, Express.js
- **Databases:** MongoDB, SQL
- **Cloud / Tools:** AWS, Git, GitHub
- **AI-Assisted Development:** Claude, GitHub Copilot, Prompt Engineering for code generation and debugging

INTERNSHIP

PulseOn-EV — **Technical Intern - Web & Mobile Development** — **Jun 2025 - Aug 2025** (2 MONTHS)
Project Details:

- Built backend REST APIs for a cross-platform EV service platform handling bookings, authentication.
- Developed a secure **OAuth & phone-based OTP login** improving usability for older audiences.
- Simplified booking user flows to reduce incorrect service requests by ~30%.
- Integrated Razorpay payment system and Google Maps-based real-time tracking for service dispatch.
- Used GitHub in a **3-member team** for **code reviews**, **PRs**, and **conflict resolution**.

Campus Credentials — **Full Stack Development Intern** — **Jun 2024 - Aug 2024** (2 MONTHS)
Project Details:

- **Engineered** a full-stack blog platform using **React**, **Node.js** and **Express.js**.
- **Architected** a **MySQL** database with foreign keys and indexing for data integrity.
- **Designed** a secure **RESTful API** featuring **JWT** and **Bcrypt** for user authentication.
- **Built** an Admin Dashboard with **Role-Based Access Control (RBAC)** for content moderation.

OPEN-SOURCE EXPERIENCE

Open-Source Contributor — Live Project — GitHub — **Dec 2025 – Feb 2026**
Calendar Wallpaper Generator | Open Source

- **Engineered** a scalable canvas-based **text overlay system** with multi-line rendering and unified scaling.
- **Eliminated** 150+ lines of duplicated font logic, improving **maintainability** and **readability**.
- Integrated **Groq AI** via **Vercel AI SDK** for real-time streaming text updates.
- Contributed to a widely used OSS project (**300+ downloads, 6 contributors, 17 star**).

ACADEMIC PROJECTS

AI Ad Mapping & Category Classification System — GitHub — **Mar 2026**
Tech: n8n, Groq LLaMA-3.1, Google Sheets, Looker Studio

- Designed & implemented a backend pipeline to classify ad creatives into structured attributes using LLM inference.
- Built API-driven data ingestion and transformation layer to process campaign data from multiple sources (Google Ads, Meta Ads)
- Engineered prompt pipelines and post-processing logic to enforce consistent schema outputs from LLM responses
- Implemented retry logic, rate limiting, and batching to handle API constraints and ensure system reliability under load
- Reduced manual tagging effort by 80% and improved downstream analytics consistency across campaigns

Resume Builder Web Application — GitHub — **Sept 2024 - Oct 2024**
Tech: React.js, Node.js, Express.js, MySQL

- Modelled normalized **MySQL** database with **8+ interconnected tables** supporting resume content.
- **Reduced user resume creation time** by **80%** through intuitive backend logic and dynamic data structure

POSITIONS OF RESPONSIBILITY

Co-founder, NPC, Podcast Community	• **Spearheaded** multiple teams totaling **15+** members, fostering a collaborative and **creative Environment**.	*2023*

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Cloud Practitioner — *May 2026*
- AWS Academy Graduate - AWS Academy Data Engineering — *Aug 2024*
- Attained 17th rank in the State-Level Coding Wars, PCCOE Spectrum — *2023*
- Open Source: Calendar Wallpaper Generator: 300+ downloads, 17 stars, 6 contributors — *2025*
